Copilot in Excel
Explore how you can use the power of AI in Excel

Copilot in excel allows you to Analyse, understand, and visualize your data with ease.

Microsoft Copilot in Excel helps you do more with your data in Excel tables by generating formula column suggestions, showing insights in charts and PivotTables, and highlighting interesting portions of data.

Try different prompts to get what you want

Create   Edit   Understand

"Generate a formula column suggestion."

Try in Excel   Get tips on Copilot prompts

Elevate your Excel worksheets with Copilot, empowering it to create formula columns seamlessly. Specify the columns you wish to include by entering the details in the command box. Copilot not only offers formula suggestions but also provides explanations for each formula, aiding in a comprehensive understanding of their functionality.
